(Text) Belize--Rebel leader Col. Castillo Armas tonight was reported to have sent Guatemalan President Jacobo Arbenz an ultimatum to surrender as government and rebel armies of nearly equal strength poised around the key town of Zacapa for their first major clash.

Radio Guatemala rebroadcast a news bulletin from radio Tegucigalpa, Honduras, which reported that the rebel ultimatum called for a surrender by 4. P.M. EDT today. Otherwise it would be impossible to avoid further bloodshed, the ultimatum said.

Reports reaching here tonight said the battle for the vital railroad and garrison town of Zacapa was imminent, a conflict which may well seal the fate of the Central American republic. Rebel troops were said to be seeking a pitched engagement with government forces.

Col. Lira, identified as commander of part of Armas' forces, was quoted in tonight's rebroadcast as saying that up to now there have been only a few skirmishes and the list of casualties is low.

(Text) Bogota--Colombia is ready to collaborate in efforts to keep the peace in America and to prevent an attempt against the principle of nonintervention under the procedures contained in the American regional system.

Colombian Foreign Minister Evaristo Sourdís, in the morning conservative "La Republica," said: "With respect to the events now occurring in Central America, Colombia cannot ignore that Guatemala, as Colombia, is an Hispanic-Latin nation which appreciates and likes us. That is why we cannot but lament what has been happening to the Guatemalan people."

With regard to the Russian veto in the Security Council against the Colombian-Brazilian proposal that the Guatemalan complaint be passed to the jurisdiction of the Inter-American Peace Committee, Foreign Minister Sourdís said: "This Russian veto has not been cast specifically against the Colombian-Brazilian proposal, but against the American Regional System, whose prestige, quite apparently, the Russians seek to undermine by any means."
